PNC second quarter financial results include the impact of BBVA USA operations for the month of June 2021.
COMMUNITY IMPACT

Through executive leadership, strategic investments and employee volunteerism, PNC is helping to build strong communities and create financial opportunities for individuals, families and businesses.

Community Development
PNC boosts the quality of life in neighborhoods through affordable home loans and lending programs, economic revitalization and customized financial solutions. In April 2021, PNC announced a Community Benefits Plan to provide $88 billion in loans, investments and other financial support to bolster economic opportunity for low- and moderate-income individuals and communities, people and communities of color, and other underserved individuals and communities over a 4-year period beginning Jan. 1, 2022. PNC earned an “outstanding” rating for exceeding Community Reinvestment Act standards in the most recent examination period, as it has consistently done since those examinations began more than 40 years ago.

Charitable Giving
In 2020, PNC provided more than $94 million in philanthropic support, including more than $68 million in grants from the PNC Foundation, and more than $26 million in charitable sponsorships from PNC Bank, N.A.

The PNC Foundation forms relationships with nonprofit organizations to advance mutual objectives driven by two priorities: (1) early childhood education; and (2) community and economic development.

PNC Grow Up Great®
A $500 million, multiyear, bilingual school readiness initiative that began in 2004, PNC Grow Up Great has benefited more than 7 million children — particularly underserved children — from birth to age 5. Built on the understanding that education is a powerful means for economic and social mobility, the program provides innovative opportunities that assist families, educators and community partners to enhance children’s learning and development.

Environmental Responsibility
PNC supports the transition to a low-carbon economy by actively managing our own internal operations, managing capital for our clients in responsible ways, maintaining risk controls that incorporate climate change considerations, and helping our clients finance their sustainable operations.
