

IMAGE RETRIEVAL SERVICE

EXPEDITE DELIVERY OF PAID CHECK DATA
AND IMAGES WITH IMAGE CD-ROM

You need an efficient, cost-effective method of managing paid check data to increase operational efficiencies, respond quickly to inquiries and reduce storage requirements.

PNC DELIVERS

PNC's Image Retrieval Service offers an innovative way to retrieve and research paid check information. You gain quick access to high-resolution images of your checks via CD-ROM, a more efficient alternative to paper documents or microfilm. As a result, you can capture, store and research your paid check information in a more cost-effective manner.

SIMPLIFY AND STREAMLINE YOUR RESEARCH ACTIVITIES

- Reduce storage costs and inefficiencies, since CD-ROMs take up a fraction of the space needed for physical check storage and can hold up to 20,000 check images.
- Tighten check security, since paid checks are no longer stored in-house.
- Gain almost instantaneous access to high-quality images, so you can review all of the check information more accurately.
- Sort and locate check images based on account numbers, dollar amount, check number or paid date, through an easy-to-use search utility and index.

GO PAPERLESS. YOUR ARP REPORTS ARE INCLUDED.

Simplify your reconciliation process with one solution because your ARP reports are included on the same CD-ROM as the check images for your reconciliation period.

IMAGE RETRIEVAL SYSTEM HARDWARE SPECIFICATIONS

To run PNC Bank's Image Retrieval System on a stand-alone PC, the following system configuration will be necessary:

Minimum system requirements:

- Processor: 300 MHz or higher Pentium II Processor
- Memory: 128 MB RAM
- Monitor: 15 inch (17 inch recommended)
- Hard Disk: 100 MB free hard disk space

The Image Retrieval System has been tested on the following platforms:

- Microsoft® Windows 7 (32 bit and 64 bit), Microsoft Windows 8 and Microsoft Windows 10

The Image Retrieval System has been tested with the following Microsoft Office versions:

- Microsoft Office 2010, Microsoft Office 2013 and Microsoft Office 2016
