

LBMA Gold Price PM Index

LBMA Gold Price PM Index

The LBMA Gold Price PM Index measures the performance of setting price of gold, determined twice each business day on the London bullion market by the five members of The London Gold Market Fixing Ltd. It is designed to fix a price for settling contracts between members of the London bullion market, but informally the gold fixing provides a recognized rate that is used as a benchmark for pricing the majority of gold products and derivatives throughout the world's markets.
