

## Tempus Technologies® Digital Wallet Solution Schedule

This Tempus Technologies Digital Wallet Solution Schedule (“**Digital Wallet Schedule**”) is a Tempus Schedule to the Tempus Appendix and sets forth the terms and conditions applicable to the Digital Wallet Solution as defined and described herein. Capitalized terms used but not defined in this Digital Wallet Schedule are defined in the Web Solution Schedule or the Tempus Appendix.

### Tempus Technologies Digital Wallet Solution

Tempus will integrate and enable alternative payment functionality to Customer’s existing Web Solution(s) for end-users with electronically stored payment methods (each a “**Digital Wallet**”) the option to select and use their Digital Wallet to remit payment to Customer (“**Digital Wallet Solution**”). The Digital Wallet Solution is considered Software and subject to the terms and conditions of the Software Exhibit.

### Features and Functionality:

- End-users who select to pay with a Digital Wallet are automatically routed from the Web Solution to content owned or managed by the selected Digital Wallet provider to complete and/or submit certain payment data or information back to the Web Solution.
- The Card designated or selected using a Digital Wallet is recognized by the Payment Gateway the same as if the end-user did not use a Digital Wallet.

### Dependent Solutions. Dependent Solutions for Digital Wallet Solution include:

- Payment Gateway provided to Customer from Tempus and all Dependent Solutions thereof
- At least one Web Solution provided to Customer from Tempus and all Dependent Solutions thereof

Provider Wallet Terms. By using or accessing the Digital Wallet Solution, Customer is expressly acknowledging and agreeing to the terms, conditions, guidelines and/or other restrictions of each Digital Wallet provider whose alternative payment method is included in the Digital Wallet Solution (collectively, “**Provider Wallet Terms**”), as such may be updated from time-to-time. Provider Wallet Terms are separate from but in addition to the terms and conditions of this Digital Wallet Schedule and the Tempus Appendix. For clarity, Provider Wallet Terms which include provisions applicable to the integration or enablement of a Digital Wallet into a Web Solution or other checkout payment page used or accessed by Customer are considered applicable to Customer, even if such integration or enablement is part of the Digital Wallet Solution provided or performed (in whole or in part) by Tempus. Provider Wallet Terms are currently available at the following hyperlinks, which also include any additional URLs or webpages hyperlinked or otherwise included therein by reference. Tempus provides these third-party hyperlinks as a convenience. Tempus has no control over third-party sites and makes no representations about any content, products or services available at these locations. When accessing third-party websites, it is recommended that Customer review their terms and conditions, accessibility standards, and privacy and security policies.

### Customer Responsibilities:

- Customer represents and warrants to Tempus that it will not accept payment using a Digital Wallet or otherwise use the Digital Wallet Solution for goods or services which are prohibited by any Payment Network, a Digital Wallet provider or otherwise as set forth in any Provider Terms.
- Customer is responsible for ensuring its compliance with the Provider Wallet Terms.
- Customer acknowledges and agrees that Tempus may terminate or suspend the provision of the Digital Wallet Solution should Tempus determine or reasonably suspect, in good faith, Customer to be in violation of the Provider Wallet Terms.
- Test transactions for the Digital Wallet Solution may require Customer to (i) create its own developer account directly with each Digital Wallet Provider and (ii) obtain hardware, software, or other products and services necessary to effectuate such test transactions.
