

## Tempus Technologies® Card Account Updater (CAU) Service Schedule

This Tempus Technologies Card Account Updater (CAU) Service Schedule ("CAU Schedule") is a Tempus Schedule to the Tempus Appendix and sets forth the terms and conditions applicable to the CAU Services as defined and described herein. Capitalized terms used but not defined in this CAU Schedule are defined in the Tokenization Schedule or the Tempus Appendix.

### Tempus Technologies' Card Account Updater Service

Tempus provides automatic periodic updates to certain cardholder data elements associated with a Token from Tempus' Tokenization Services ("**CAU Service**"). The CAU Service does not guarantee updates to all Tokens. Tokens associated with cards issued by issuers who do not participate in a Visa, Mastercard, American Express or Discover account updater programs will not receive automatic updates as part of the CAU Service. The CAU Service is considered Software as defined in the Tempus Appendix and therefore subject to the Software Exhibit thereto.

### Features and Functionality:

- CAU Service updates will occur automatically typically once per calendar month.
- Customer may elect to receive reporting of certain cardholder data elements that resulted in a Token being updated by the most recent monthly CAU Service update, including truncated Card numbers and the masked data elements. Additional costs associated with such reporting may apply as set forth on the Pricing Proposal.

### Dependent Solutions. Dependent Solutions for CAU Service include:

- Tokenization Services being provided to Customer pursuant to the Tokenization Schedule and all Dependent Solutions associated with the Tokenization Services
- Compatible Card acquirer and processing Provider who also provides Customer with its card account updater service.

### Customer Responsibilities:

- Prior to implementation of the CAU Service, Customer must complete any necessary registrations with any Payment Network in connection with Customer's receipt of the CAU Service as required under Network Rules.
- If Customer is electing to receive reporting as part of its CAU Service, Customer (i) must ensure it has access to a device with a current web-browser and applicable compatible software that permits for secure transmission (ii) is responsible for its receipt, use, transmission, copying, storage, retention, modification, or handling of the reports, including data provided therein, including compliance with all applicable laws and Network Rules with respect to such data.
- To maximize effectiveness of CAU Service, Customer is responsible for coordinating and ensuring its billing cycles or other payment processing timeframes occur after CAU Service's periodic monthly update.
- Customer's failure to update Tokens as provided in the Tokenization Schedule may limit or impair the functionality of the CAU Service.
