You may link accounts with at least one common account owner for purposes of receiving pricing benefits (for example, waiver of a monthly service charge if balance requirements are met). When you link accounts with other accounts, any account owner on any linked accounts may have access to limited information about any of the linked accounts. This is true even if that account owner is not a signer on the linked account. Also, any signer added later to one of the linked accounts will be able to see the limited information. The limited information that may be available includes, the existence of the account and information to determine if the criteria for the fee waiver and/or relationship rate benefits has been met, such as: the balance of the account, the number and total dollar amount of direct deposits received per month and the number of debit and/or credit card purchases posted per month.
