WHY PNC FOR MANUFACTURING

- Optimize Cash Flow
- The PNC Advantage for Manufacturers
- Ensure Access to the Credit You Need
- Service for Foreign Business
Optimize Your Cash Flow

Cash flow is the lifeblood of your business, and you need to make the most of it. **PNC CFO: Cash Flow Optimized** is a different kind of banking experience tailored by you to effectively and continually make the best use of your cash flow — to help you achieve your business and personal goals.

Personalize Your Experience with a Cash Flow Conversation

Our PNC Bankers are eager to listen and understand your story because every manufacturing business is unique. We want to hear about how your business operates, where you want to take your business, the opportunities and challenges you face, your aspirations and what drives you. Tell us about the key relationships involved with your business — customers, vendors, suppliers, employees and you, the business owner. We’ll share our knowledge of how receiving, paying and managing cash flow is fundamental to optimizing these relationships today and in the future.

What Makes Your Experience Different

Our cash flow conversation leads to the right foundation — a **PNC business checking solution for manufacturers** with features and services tailored to your everyday transaction needs. Then use our experience to add other PNC solutions to help address all your unique cash flow challenges. The result can be a comprehensive banking relationship that delivers improved operating efficiency, increased accessibility and greater insight when it comes to your cash flow.

Greater insight into your cash flow can allow you to make more-informed decisions. We help you better understand the details of your cash flow through our innovative online financial management experience called **Cash Flow Insight powered by PNC CFO** — a suite of online tools enabling you to view, plan, forecast and manage cash flow like never before.

We recognize that every business faces opportunities and challenges that are unique — and the same applies across a variety of industries. Our **PNC Advantage Programs** help businesses optimize cash flow within the operating cycles of select industries. Plus, our PNC Banker can be a valuable asset in providing an effective combination of cash flow knowledge and industry experience. You will also have access to valuable resources, such as webinars, industry-specific newsletters, white papers, podcasts and PNC Economic Outlooks.

Our unique banking experience is designed to help you holistically optimize cash flow. We seek to make it easy and efficient for you to manage your cash flow through PNC resources in these key areas: **Accelerate Receivables**, **Improve Payment Practices**, **Monitor and Project Cash**, **Pursue Financial Well-Being** and **Ensure Access to Credit**.

That’s PNC CFO: Cash Flow Optimized™

---

GET CASH FOR YOUR BUSINESS

Think strategically about your need to borrow. Leverage insight into your cash flow so that cash shortfalls don’t slow you down and you can make effective decisions about larger capital needs. **Ensure Access to Credit** through customized financing solutions tailored to your manufacturing business.

A **line of credit** can help you effectively manage operational cash shortfalls. Your longer-term capital needs can be met by **equity installment loans**, **secured term loans**, **vehicle financing** and **commercial real estate financing**. **SBA financing** and **leasing solutions** may be options to consider as alternatives to traditional financing solutions.

Leverage **Cash Flow Insight** to strategically manage your use of credit. Benefit from seeing potential upcoming cash shortfalls by using **Timeline**. This will help you effectively manage credit as part of your cash flow strategy and see the best times to utilize your line of credit. Project future cash scenarios using **Trend**, which enables you to better manage credit needs to help achieve longer-term business goals.

MAKE IT EASY — FOR YOUR CUSTOMERS AND YOURSELF

Relationships with your customers are fundamental to your success — and your cash flow. Giving your customers more ways to pay is good for business. And so is getting cash into your business faster. Consider all the opportunities to **Accelerate Receivables** by optimizing how you receive and direct incoming cash.

Can your processes be faster or more efficient? Your PNC Banker will work with you to identify opportunities to effectively manage incoming payments from customers. Solutions like **PNC Merchant Services**® and **Remote Deposit**® can help you turn revenue into working cash more efficiently.

**Cash Management Services** such as Lockbox or ACH can help you gain better control over incoming cash, simplify accounting and help you to mitigate risks associated with managing customer payments.

Online tools within **Cash Flow Insight**, such as **Cash In**, enable you to keep track of funds scheduled for receipt. Reduce paper and automate your invoicing processes with **Receivables**. And sync receivables data in **Cash Flow Insight** with your accounting software® by using **Accounting Software Sync** for improved visibility and control while saving time by avoiding duplicate data entry.
BETTER CONTROL AND MANAGE YOUR PAYMENTS

Improve Payment Practices to get cash where it needs to go with increased efficiency and at a lower cost. Better manage your relationships with suppliers and vendors by streamlining your payment processes — through increased control and visibility over outgoing cash.

How you pay vendors, suppliers and employees is critical. So is timing. We will help you identify payment solutions such as PNC Bank business credit cards® and the PNC Bank Visa® Business Debit Card to build efficiency and help minimize time and costs. Cash Management Services like wire transfer, ACH and Positive Pay can provide you with better control over outgoing cash and help you to mitigate risks with your payment processes. A Foreign Currency account allows you to send foreign payments and manage cash flow beyond U.S. borders.

Cash Flow Insight can help you stay in control during the ups and downs of your operating cycle. You can keep track of committed and uncommitted cash outflows online with Cash Out. Upload and store bills digitally and pay vendors electronically to reduce paper processes with Payables. And sync payables data in Cash Flow Insight with your accounting software to save time and avoid duplicate data entry by using Accounting Software Sync.

MAKING THE MOST OF YOUR CASH FLOW

Pursue Financial Well-Being by capitalizing on opportunities to effectively use your cash to help achieve short- and long-term goals. Manage your cash flow to meet business needs without sacrificing liquidity. And our cash flow conversation can also help you plan for personal financial goals, like a comfortable retirement or personal investment strategies.

Maintain liquidity and flexibility while you put cash in your business to work with solutions like our Premium Business Money Market Account® and Business Sweep Checking. Also consider your options to effectively use cash for Personal and Employee Retirement Planning. Plus, we can refer you to PNC resources that can help you execute your personal investment plan.

Identify opportunities to optimally manage the cash in your business with Cash Flow Insight. Use Trend to view your business more strategically. Compare your past results with current and projected cash performance — so you can plan and monitor progress more confidently and adjust your cash flow goals to reflect changing business opportunities.

BETTER INSIGHT INTO DECISIONS AND MANAGING CASH FLOW RISK

Monitor and Project Cash to gain insight into your cash position and leverage detailed information to make better-informed decisions. An array of Cash Management solutions is available depending on the scale and sophistication of the reporting needs of your manufacturing business. Plus, these solutions can help you to effectively monitor your cash control processes to help you to mitigate risks associated with cash flowing in and out of your business.

Cash Flow Insight enables you to get a short-term view of your cash on hand and what you project to have in your business with Timeline. You can forecast and plan for the future by comparing your business's current and projected cash performance with past results by using Trend.
GET MORE EFFICIENCY, CONTROL AND INSIGHT WITH CASH FLOW INSIGHT

Optimize your cash flow and the relationships that impact it — your customers, employees, advisors, vendors and suppliers — with Cash Flow Insight. A comprehensive cash flow management solution, available only at PNC. Cash Flow Insight with Receivables, Payables and Accounting Software Sync helps you speed up receivables, stay on top of payables, store documents online, and sync with your accounting software* — while your receivables and payables activities automatically update an overall view of your cash flow, so you can see where you are today, and project and plan for your future.

HAVE A CASH FLOW CONVERSATION

Our PNC Bankers are eager to listen to your story because every manufacturing business is different. We want to hear about how your business operates, where you want to take your business, the opportunities and challenges you face, your aspirations and what drives you. Combining your unique insight with our ability to connect you to innovative cash flow solutions is the foundation of building a banking relationship that can help optimize your cash flow today and into the future.
