Optimize Cash Flow

The cash flow cycle is the lifeblood of your business – but it can be inconsistent and unpredictable for professional services firms. CFO: Cash Flow Optimized™ from PNC is a different kind of banking relationship that can help you achieve your business and personal goals — by giving you the ability to effectively and continuously make the best use of your cash flow. We help you better understand the details of your cash flow with our innovative online financial management experience called Cash Flow Insight™ powered by PNC CFO — a suite of online tools enabling you to view and manage cash flow like never before.¹

The PNC Advantage for Professional Services

PNC delivers a tailored mix of cash flow solutions designed for professional services businesses.

Whether you are an accounting, law, design, insurance or other professional services business, the unique ways you conduct business internally and for your clients demand a specialized banking relationship.

From offering escrow accounts for trust attorneys, title companies and architectural firms, to meeting the financial needs of accounting firms, your PNC Banker has industry experience and knowledge to help optimize the cash flow for your business, and for your clients’ businesses.

Knowledge is Power

Knowledge of the latest key topics in business or in managing cash can be vital to your success. PNC customers in the professional services industry have access to valuable educational resources to help keep ahead of the competition such as:

Business Insights for Professional Services — An industry-specific newsletter from PNC.

White Papers — From risk management to business appraisals, we’ll keep you current on industry developments.

Podcasts — Helpful commentary for professional services businesses.

MAKE IT EASY – FOR YOUR CUSTOMERS AND YOURSELF

Relationships with your customers are fundamental to your success – and your cash flow. Giving your customers more ways to pay is good for business. And so is getting cash into your business faster. Consider all the opportunities to Accelerate Receivables by optimizing how you receive and direct incoming cash.

Can your processes be faster or more efficient? Your PNC Banker will work with you to identify opportunities to effectively manage incoming payments from customers. Solutions like PNC Merchant Services² and Remote Deposit³ can help you turn revenue into working cash more efficiently.

Cash Management Services⁴ such as Lockbox or ACH can help you gain better control over incoming cash, simplify accounting and help to mitigate risks associated with managing customer payments.

Online tools within Cash Flow Insight, such as Cash In, can enable you to keep track of funds scheduled for receipt. Reduce paper and automate your invoicing processes with Receivables. And sync receivables data in Cash Flow Insight with your accounting software⁵ by using Accounting Software Sync for improved visibility and control while saving time by avoiding duplicate data entry.

BETTER CONTROL AND MANAGE YOUR PAYMENTS

Improve Payment Practices to get cash where it needs to go with increased efficiency and at a lower cost. Better manage your relationships with suppliers and vendors by streamlining your payment processes – while gaining increased control and visibility over outgoing cash.

How you pay vendors, suppliers and employees is critical. So is timing. We will help you identify payment solutions such as PNC Bank business credit cards⁴ and the PNC Bank Visa® Business Debit Card to build efficiency and help minimize time and costs. Cash Management Services⁴ like wire transfer, ACH and Positive Pay can provide you with better control over outgoing cash and help you to mitigate risks with your payment processes. Legal firms can effectively manage client monies with a free Interest on Lawyers Trust Account (IOLTA)⁷.

Cash Flow Insight can help stay in control over the ups and downs of your operating cycle. You can keep track of committed and uncommitted cash outflows online with Cash Out. Upload and store bills digitally and pay vendors electronically to reduce paper processes with Payables.

And sync payables data in Cash Flow Insight with your accounting software⁵ to save time and avoid duplicate data entry by using Accounting Software Sync.
BETTER INSIGHT INTO DECISIONS AND MANAGING RISK

Monitor and Project Cash to gain insight into your cash position and leverage detailed information to make better-informed decisions. An array of Cash Management solutions is available depending on the scale and sophistication of the reporting needs of your firm. Plus, these solutions can help you to effectively monitor your cash control processes to help you to mitigate risks associated with cash flowing in and out of your business.

Cash Flow Insight enables you to get a short-term view of your cash on hand and what you project to have in your business with Timeline. You can forecast and plan for the future by comparing your business’s current and projected cash performance with past results by using Trend.

MAKING THE MOST OF YOUR CASH FLOW

Pursue Financial Well-Being by capitalizing on opportunities to effectively use your cash to help achieve short- and long-term goals. Manage your cash flow to meet business needs without sacrificing liquidity. Beyond your business, your cash flow can be a resource to address your personal financial goals, like a comfortable retirement or your personal investment strategies.

Maintain liquidity and flexibility while you put cash in your business to work with solutions like our Premium Business Money Market Account and Business Sweep Checking. Also consider your options to effectively use cash for Personal and Employee Retirement Planning. Plus we can refer you to PNC resources that can help you to execute your personal investment plan.

Identify opportunities to optimally manage the cash in your business with Cash Flow Insight. Use Trend to view your business more strategically. Compare your past results with current and projected cash performance – so you can plan and monitor progress more confidently and adjust your cash flow goals to reflect changing business opportunities.

GET CASH FOR YOUR BUSINESS

Think strategically about your need to borrow. Leverage insight into your cash flow so cash shortfalls don’t slow you down and for making decisions about larger capital needs. Ensure Access to Credit through financing solutions tailored to your business.

A line of credit can help you effectively manage operational cash shortfalls. Your longer-term capital needs can be met by equity installment loans, secured term loans, vehicle financing and commercial real estate financing. SBA financing and leasing solutions may be options to consider as alternatives to traditional financing solutions.

We will work with you to help secure financing for your clients. Our Business Bankers can explain our business credit solutions and the application process to assist you with clients seeking financing to meet business objectives.

Leverage Cash Flow Insight to strategically manage your use of credit. Benefit from seeing potential upcoming cash shortfalls by using Timeline. This can help you effectively manage credit as part of your cash flow strategy and see the best times to utilize your line of credit. Project future cash scenarios using Trend, which enables you to better manage credit needs to help you to achieve longer-term business goals.
HAVE A CASH FLOW CONVERSATION.

Our PNC Bankers are eager to listen to your story because every professional services business is different. We want to hear about how your business operates, where you want to take your business, the opportunities and challenges you face, your aspirations and what drives you. Combining your unique insight with our ability to connect you to innovative cash flow solutions is the foundation of building a banking relationship that can help optimize your cash flow today and into the future.
