Community Impact

For more than 160 years, PNC has focused on and invested in the communities and people we serve — when our communities thrive, we thrive. Our investment in communities has never been separate from our business — it is fundamental to it.

Community Development

PNC boosts the quality of life in neighborhoods through affordable home loans, small business lending programs and by financing projects that create jobs and new rental housing. Through PNC's Community Benefits Plan, which began in 2022 and ended on December 31, 2025, PNC provided more than \$119.3 billion in loans, investments and philanthropic support to bolster economic opportunity for low- and moderate-income individuals and communities. PNC earned an "outstanding" rating for exceeding Community Reinvestment Act standards in the most recent examination period, as it has consistently done since those examinations began more than 40 years ago.

The **PNC Foundation's** priority is to form partnerships with community-based nonprofit organizations in order to enhance educational opportunities, with an emphasis on early childhood education, and to promote the growth of communities through economic development initiatives.

PNC Grow Up Great®

PNC's signature philanthropic initiative since 2004, PNC Grow Up Great is a \$500+ million, bilingual effort focused on high-quality early childhood education. Its goal is to help prepare children from birth to age 5 for success in school and in life, with a special focus on underserved communities. The initiative takes a comprehensive approach that includes grant funding, employee volunteerism, awareness and advocacy. By focusing our philanthropic resources on high-quality early childhood education, we aim to make the greatest possible difference, positively impacting school readiness.

Environmental Responsibility

PNC supports the transition to a low-carbon economy by actively managing our own internal operations, managing capital for our clients in responsible ways, maintaining risk controls that incorporate climate change considerations and helping our clients finance their sustainable operations.
